

What evidence is being used for each of my child's subjects?

- It is important that you know what evidence is being used to form your child's TAG
- The following slides show the portfolios of evidence for each subject
- These portfolios will be the same for most students, but there may be slight changes for some students who have suffered from absence or illness or other extenuating circumstances
- Your child's evidence may be checked by exam boards to ensure it is fair
