VERY GENEROUS FITTING

1. These measurements apply to the pleated tartan skirts only.
2. These are low waisted skirts so they measure around 3 or 4 inches more than the stated skirt size.
3. **Our best selling sizes for Age 11 girls starting secondary school are size 22" (Like a ladies size 6) and size 24" (like a ladies size 8).**
4. Go up or down a size if your child seems smaller or larger than the average girls in her year group.
5. If you wish to buy multiple sizes to try on, returns are free and we will refund any unwanted sizes.
6. The **standard length** is shown on the small white square label inside the skirt, for most styles this is normally 18 inches, but the length increases by 2 inches after size 32, waist.
7. The Pencil style skirts are a very different fitting to the pleated skirts. Because they are high waisted they are a much tighter fitting. You usually need to go up from the pleated skirt size by 2 full sizes to get the right pencil skirt size.
